

Amendments to the Claims:

1. **(Currently amended)** A speaker comprising a diaphragm, wherein the diaphragm is ~~an~~ an injection-molded product made of a mixture containing a thermoplastic resin material and a fiber material, said fiber material containing at least one of wood fiber, leaf fiber, bast fiber, seed fiber, fruit fiber, stem fiber, and animal fiber.
2. **(Currently amended)** The speaker of claim 1 further comprising a dust cap attached to ~~the said diaphragm, wherein~~
—— the dust cap is an injection-molded product made of a mixture containing the resin material and the fiber material.
3. **(Currently amended)** The speaker of claim 1, wherein ~~the said thermoplastic~~ resin material is a crystalline olefin resin or an amorphous olefin resin.
4. **(Currently amended)** The speaker of claim 1, wherein ~~the said thermoplastic~~ resin material is one of polypropylene and engineering plastic.

Claim 5 (Cancelled)

6. **(Currently amended)** The speaker of claim ~~5~~ 1, wherein said fiber material contains the wood fiber, and said wood fiber contains at least one of craft kraft pulp and sulfite pulp.
7. **(Currently amended)** The speaker of claim 1, wherein ~~the said mixture is added with~~ includes reinforcement.

8. **(Currently amended)** The speaker of claim 1, wherein the said fiber material has a fiber length of 0.2 mm to 20 mm.
9. **(Currently amended)** The speaker of claim 1, wherein the said mixture contains 5% to 70% ~~in~~by weight of the said fiber material.
10. **(Currently amended)** The speaker of claim 2, wherein one of the said diaphragm and the said dust cap is black or natural color.
11. **(Currently amended)** The speaker of claim 2, wherein ~~one of the diaphragm and the dust cap includes the~~ said thermoplastic resin material and the said fiber material; ~~which~~ are different in color from each other.
12. **(Currently amended)** The speaker of claim 11, wherein ~~one of the diaphragm and the dust cap includes the~~ said thermoplastic resin material; ~~which~~ is transparent or semi-transparent.
13. **(Currently amended)** A diaphragm for ~~speakers~~ a speaker, the said diaphragm being an injection-molded product made of a mixture containing a thermoplastic resin material and a fiber material, said fiber material containing at least one of wood fiber, leaf fiber, bast fiber, seed fiber, fruit fiber, stem fiber, and animal fiber.
14. **(Currently amended)** The diaphragm of claim 13, wherein the said thermoplastic resin material is a crystalline olefin resin or an amorphous olefin resin.
- Claim 15 **(Cancelled)**

16. **(Currently amended)** The diaphragm of claim 13, wherein the said mixture ~~is added with~~ includes reinforcement.
17. **(Currently amended)** The diaphragm of claim 13, wherein the said fiber material has a fiber length of 0.2 mm to 20 mm.
18. **(Currently amended)** The diaphragm of claim 13, wherein the said mixture contains 5% to 70% ~~in~~ by weight of the said fiber material.
19. **(Currently amended)** The diaphragm of claim 13, wherein the said diaphragm is black or natural color.
20. **(Currently amended)** The diaphragm of claim 13, wherein the diaphragm includes the said thermoplastic resin material and the said fiber material; ~~which~~ are different in color from each other.
21. **(Currently amended)** The diaphragm of claim 20, wherein the diaphragm includes the said resin material, ~~which~~ is transparent or semi-transparent.
22. **(Currently amended)** A dust cap for ~~speakers~~ a speaker, the said dust cap being an injection-molded product made of a mixture containing a thermoplastic resin material and a fiber material, said fiber material containing at least one of wood fiber, leaf fiber, bast fiber, seed fiber, fruit fiber, stem fiber, and animal fiber.
23. **(Currently amended)** The dust cap of claim 22, wherein

the said thermoplastic resin material is a crystalline olefin resin or an amorphous olefin resin.

Claim 24 (Cancelled)

25. (Currently amended) The dust cap of claim 22, wherein the said mixture ~~is added with~~ includes reinforcement.
26. (Currently amended) The dust cap of claim 22, wherein the said fiber material has a fiber length of 0.2 mm to 20 mm.
27. (Currently amended) The dust cap of claim 22, wherein the said mixture contains 5% to 70% ~~in~~ by weight of the said fiber material.
28. (Currently amended) The dust cap of claim 22, wherein the said dust cap is black or natural color.
29. (Currently amended) The dust cap of claim 22, wherein the dust cap ~~includes the~~ said thermoplastic resin material and the said fiber material; ~~which~~ are different in color from each other.
30. (Currently amended) The dust cap of claim 29, wherein the dust cap ~~includes the~~ said thermoplastic resin material, ~~which~~ is transparent or semi-transparent.
31. (Currently amended) Electronic equipment comprising a speaker, wherein the said speaker ~~including~~ includes a diaphragm and a dust cap, and

the each of said diaphragm and the said dust cap are is an injection-molded products product made of a mixture containing a thermoplastic resin material and a fiber material, said fiber material containing at least one of wood fiber, leaf fiber, bast fiber, seed fiber, fruit fiber, stem fiber, and animal fiber.

32. **(Original)** The electronic equipment of claim 31 being equipment mounted on a car.

Claims 33-39 **(Cancelled)**

40. **(New)** The speaker of claim 2, wherein
said dust cap is an injection-molded product made of a mixture containing a thermoplastic resin material and a fiber material, said fiber material containing at least one of wood fiber, leaf fiber, bast fiber, seed fiber, fruit fiber, stem fiber, and animal fiber.

41. **(New)** The speaker of claim 40, wherein
in said dust cap, said thermoplastic resin material and said fiber material are different in color from each other.

42. **(New)** The speaker of claim 40, wherein
in said dust cap, said thermoplastic resin material is transparent or semi-transparent.
